

Making people responsible for their own safety is not only possible, it is essential to achieve zero harm.

Let SafeStart™ show you how your company can achieve an extra 50-90% improvement in OHS performance within 12 months.

SafeStart™ is a personal safety skill course that teaches people how they can use their brain as personal protective equipment to avoid incidents.

What You'll Learn By Attending the Workshop

- how SafeStart™ prevents people from making unintentional mistakes
- the 4 critical errors that result in more than 90% of all incidents and the 4 states that people are in when they make these errors
- recognising the patterns that lead to injuries & the types of 'at-risk' behaviours
- how to deal with the fact that adults often feel so safe that they'll take risks and make critical errors that lead to injury.

Who Should Attend?

- Safety Managers, Safety Advisors/Officers and Safety Co-ordinators
- Plant Managers and Site Managers
- Anyone involved or interested in safety awareness, safety training and/or the personal aspects of safety.

SafeStart Is Available In Australia

Over 1.5 million people have been trained in SafeStart at more than 1500 sites in over 40 countries. SafeTrain, an Australian OHS and environmental consultancy, has been granted exclusive rights to bring Safestart to Australia.

Meet The SafeStart Creator And Author

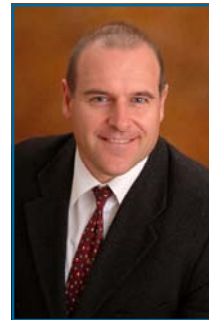

Larry Wilson, the author and founder of SafeStart, will be in Australia to run SafeStart workshops. This is an ideal opportunity to gain a first hand insight into the SafeStart methodology, and to ask the questions that can lead your business to safer levels of performance.

To find out more about how SafeStart can help, or to register for one of these events, visit our website www.safetrain.com.au, call 0439 344 987, or fill in the details below and either fax or mail to SafeTrain.

About SafeTrain

SafeTrain has provided OHS and environmental consultancy services, training and auditing to Australian business since 2002.

The principal of SafeTrain, Cristian Sylvestre, is an OHS and environmental professional with over 15 years of front line industry experience in companies like Shell and ICI.
